## ABOUT **EverExpanse**

Established in 2019, EverExpanse is an Enterprise & Digital Solutions company delivering application engineering, managed support, cloud, and database services for modern businesses.

We help organizations build, modernize, support, and optimize business-critical applications through practical engineering, scalable delivery models, and dependable long-term support.

Our strategic services span application engineering, application support, cloud and DevOps support, database administration, and database development, enabling enterprises to improve reliability, performance, and operational efficiency.

With strong engineering roots and delivery presence across India and the United States, EverExpanse supports global clients through flexible engagement models, security-conscious execution, and technology-aligned solutions.

## DATABASE Administration

At EverExpanse, we provide comprehensive database administration services to ensure your data platforms are secure, optimized, and consistently available.

Our experienced database engineers support performance tuning, monitoring, troubleshooting, and system optimization across enterprise environments, helping organizations improve reliability, reduce downtime, and manage data efficiently at scale.

### SQL Server Consulting

- ✓ SQL Server Migration
- ✓ Code Review and Improvement
- ✓ Disaster Recovery Setup
- ✓ SQL Server Audit
- ✓ Replication Configuration and Troubleshooting

### SQL Server Remote Support

- ✓ Preventive database monitoring
- ✓ Fault management & monitoring
- ✓ Backup process strategy
- ✓ Production DB availability monitoring
- ✓ Performance tuning & optimization

### Database Management Solutions

- ✓ Large partitioning
- ✓ Data migration
- ✓ Deadlock monitoring and fixes
- ✓ Critical issue resolution
- ✓ Cloud migration assessment support
- ✓ 24/7 DBA support
- ✓ Documentation/SOP

### Performance Tuning & Analysis

- ✓ Hardware Optimization
- ✓ SQL Server Configuration Tuning
- ✓ Query Optimization
- ✓ SSIS Optimization
- ✓ DB Design Optimization

# 05

## DATABASE Development

At EverExpanse, our database development services cover database architecture design, optimized data models, complex stored procedures and functions, performance tuning, and database migration. We help organizations build robust, scalable, and high-performing database foundations aligned with business needs.

Our expertise spans SQL Server, Oracle, PostgreSQL, and other modern database platforms, enabling us to adapt to your technical environment and long-term growth needs. Whether you are building a new database, optimizing an existing one, or migrating to a new platform, we provide dependable support from design through implementation.

### Our Services Include

- ✓ Customized Database Solutions
- ✓ Seamless Migration Process
- ✓ Cross-Platform Expertise
- ✓ Performance Optimization
- ✓ Scalability and Future-Proofing
- ✓ Continuous Support and Maintenance

### Core Benefits

- ✓ Tailored Database Solutions
- ✓ Expertise Across Platforms
- ✓ Efficient Data Migration
- ✓ Performance Optimization
- ✓ Scalability and Flexibility
- ✓ Reliable Support and Maintenance

## APPLICATION Engineering

At EverExpanse, we deliver end-to-end application engineering services to help organizations build, modernize, and support business-critical applications across industries. From designing new platforms to enhancing existing systems, our approach focuses on scalability, reliability, and long-term maintainability.

We combine strong engineering practices with modern technologies to ensure faster delivery, seamless integrations, and high-performance applications aligned with your business goals.

### Our Services Include

- ✓ Product Discovery & Architecture – translating business goals into robust, scalable solutions.
- ✓ Full-Stack Web & Mobile Development – Angular, React, .NET, Java, Go, Node.js, iOS/Android, and cross-platform.
- ✓ Cloud & Hybrid Solutions – Azure, AWS, GCP, and on-prem design, scale, deployment & monitoring.
- ✓ Data & Analytics – database engineering, administration, reporting dashboards and BI solutions.
- ✓ Integrations & API Platforms – payment gateways, ERP/CRM, eCommerce, and partner APIs.
- ✓ Application Maintenance & Support – L1/L2/L3 application support with proactive monitoring, patching, and optimization.

### Core Benefits

- ✓ Technology Agnostic – solutions designed for your environment.
- ✓ Accelerated Delivery – agile methods, DevOps automation, and continuous testing.
- ✓ Global + Local – USA & EMEA, backed by offshore delivery from India.

### Micro-Case Highlights

- ✓ Payment Gateway Modernization (USA) – Reduced infra costs by 30% and cut release cycles to 2 weeks.
- ✓ eCommerce Checkout Platform (Middle East) – Integrated multi-gateway, Arabic/RTL support, boosting conversions by 18%.
- ✓ PSP Processing Platform (USA) – Built from scratch with support for credit, debit, ACH, eCheck, Google Pay & Apple Pay, with configurable merchant onboarding, QR and real-time reporting.
